About Velcan:

Velcan Holdings is a Luxembourg headquartered investment holding company founded in 2005, operating as an independent power producer in emerging countries and managing a global portfolio of financial assets.

The company owns and operates a 15MW hydro power plant in Brazil that it developed and built in 2009. The company is currently developing as main energy project a cascade of hydropower concessions located in India and totalling 571 MW.

Hydropower concessions provide long periods of cash generation but their development outcome is uncertain and many years are needed to bring these projects to maturity in emerging countries: it involves field studies in

remote places, obtaining the necessary authorizations and permits, and land acquisition in political and regulatory environments that can be unstable or heavily hampering. Meanwhile Velcan Holdings actively manages its treasury, investing in listed and unlisted financial instruments.

Velcan Holdings' headquarters are in Luxembourg, with administrative and financial offices in Singapore and Mauritius. The team dedicated to the development of the Indian hydropower cascade is based in New Delhi and at the project site (Arunachal Pradesh). The team dedicated to the Rodeio Bonito plant is based in Sao Paulo and Chapeco (Santa Catarina State).

The company was launched more than 15 years ago by its reference shareholder LHP SA, owned by Velcan Holdings' management team.

Velcan Holdings is listed on the Euro MTF Stock Market in Luxembourg (Ticker VLCN/ISIN FR0010245803).

Velcan Holdings never performed any Public Offer as understood under Directive 2003/71/CE of the European Parliament and Council.
